

ACT: Every question counts. 3.10.20

The ACT is more than an admissions exam.

The assessment also includes a profile and education/career planning section to help students plan for life after high school. Students receive personalized career information and develop a comprehensive profile that tells colleges about their work in high school and future plans. Students can also see their strengths and weaknesses in the subject areas tested to help direct instructional support and future education.

The ACT is also our state accountability test meaning the results are used, in part, to calculate the district and individual school grades on the Alabama State Report Card. It's important to show up and do your best.

Good luck on March 10th, Juniors!
